ZEON CHEMICALS LAUNCHES NEW CORPORATE WEBSITE

www.zeonchemicals.com

Louisville, KY (Sep. 21, 2017) – Zeon Chemicals L.P. has launched the latest version of its U.S. corporate website, www.zeonchemicals.com. The site boasts a new look and feel as well as a much friendlier, customer-driven navigation that allows for ease of locating technical data, product specifications, and health/safety information.

Zeonchemicals.com is the most comprehensive guide to ZEON's synthetic rubber products. Customers can find detailed product technical data, recommended product applications, and technical and safety data sheets. Individuals seeking employment opportunities can find career postings and pertinent details concerning career opportunities at ZEON.

Zeon Chemicals L.P. is a subsidiary of Zeon Corporation (Tokyo, Japan). ZEON is a world leader in specialty elastomers, polymers, and specialty chemicals, operating a global network of plants in Asia and North America, and research -and -development laboratories in the United States, Japan, China, and Singapore.

For more information, contact Jason Langford, Market Communications Associate, at (502) 775-7600.
